

STATE OF UTAH DEPT. OF AGRICULTURE

62nd Annual Rocky Mountain Regional Turfgrass Association Conference & Trade Show Crowne Plaza DIA, Denver, CO December 8 – 10, 2015

It is the responsibility of individual applicators licensed in the State of Utah to keep track of their continuing education units (CEU's). If you are an applicator with a license from the State of Utah wanting to obtain CEU Credit at the RMRTA conference, you will use the CO Department of Agriculture 'Verification of Continuing Education' form provided at the RMRTA conference.

Credit could be awarded according to the State of Colorado Department of Agriculture Workshop Number 16046 document, using what they award their applicators, or some other form of verification of what sessions the Utah applicator attends.

It will be the applicator's responsibility to maintain a file of proof that they obtained the CEU's needed for re-certification in Utah. If you need to replace your certificate, agenda, letters, etc... you will need to contact the source of credit, or the state that certified the course for continuing education credit, not UDAF.

For the CO Department of Agriculture approved continuing education, go to http://rmrta.org/ceu_info.html
